

Metal Crown Bottle Caps

Crown cap is the one used to fit standard pry-off glass bottles for Pry Off and Twist Off. Metal crown caps are commonly used to seal glass bottles, especially for beverages like sodas, beers, and juices. Crown caps ensure maximum sealing pressure and good hermetic seal. The oxygen-scavenger liner preserves taste and drink quality.

Specification:

Thickness measurements: 0,17mm 0,18mm 0,20mm 0,22mm 0,23mm
