

## Champagne Bottle Cap

An aluminum champagne bottle cap is a closure specifically designed for use on champagne and sparkling wine bottles, and is usually made of aluminum. Unlike traditional corks, aluminum caps offer some unique advantages, especially when it comes to preventing leakage and maintaining the quality of the wine.

Aluminum champagne bottle cap is usually divided into aluminum screw cap and capsule two kinds, the specific function is as follows:

### 1. Aluminum Screw Cap:

Material: 3105 aluminum alloy (aluminum-manganese alloy), high strength, corrosion resistance and easy to press molding.

Surface treatment: through plating, spraying or laser engraving process, printed brand logo or decorative patterns.

### 2. Aluminum Foil Wine Capsule:

Material: Aluminum foil with a thickness of about 0.1mm and a polyethylene coating on the surface to enhance sealing.

Function: Insulates the cork from oxygen and light, protects the cork from moisture and insects.

## Advantage of Champagne Bottle Cap:

- Strong Seal: Aluminum caps provide a better seal, preventing gas from escaping and keeping champagne bubbly and fresh.
- ANTI-THEFT FUNCTION: Many aluminum champagne bottle caps are designed with an anti-theft mechanism that prevents unauthorized opening, making them suitable for use in bars, restaurants and retail stores.
- Ease of opening: Compared to traditional cork, aluminum caps are easier to open and more convenient for consumers to enjoy.
- Aesthetically pleasing: Aluminum caps can be printed with a variety of patterns and brand logos to enhance the visual appeal of the product and strengthen the brand image.
- Lightweight: Aluminum is relatively lightweight, making it easy to transport and store.
- Environmentally friendly: Aluminum is a recyclable material and meets modern environmental requirements.

## Packaging of Aluminum Champagne Bottle Caps:

Parameter	Specification
Quantity	According to the caps sizes
Packing box	5 ply or 7 ply Body Corrugated Boxes according to the requirement of customer.
Packing – Inner	Packed in sealed Polyethylene bags
Packing – External	Gum tape and strapped with PVC straps
Optional	Palletize as per Customer requirement.
